RESEARCH AND PROFESSIONAL EXPERIENCES

August 2024 - Present : **Research Associate at the Toxic Action Lab - MSU**

The Toxic Action Lab is a collaborative group of faculty, students, and community partners, and works together with residents to educate and empower communities facing emerging contamination and community health concerns

Responsibilities include attending community meetings and events including related to public awareness regarding emerging contamination and health concerns, and leading literature reviews for academic articles on relevant topics.

August 2025 - Present : **Research Associate at the Park Connections Lab - MSU**

The Park Connections Lab aims at addressing the intersections of parks, protected areas, recreation, and communities through academic research and awareness raising activities

Responsibilities include attending regular lab meetings and discussions, and collaboratively work on developing academic articles and attending conferences on the core focus of human relationships with the environment

July 2025 - Present : **International Students Liaison - CSUS GSO**

Responsibilities include supporting new international students at CSUS department to adjust to the new culture and environment at the MSU; and arranging cultural engagements and activities, such as periodic cultural

luncheon potluck within the department, to foster community building by strengthening connections among graduate students and faculties within CSUS, and enhance inclusion and belonging by creating a welcoming space where diverse identities and experiences are valued.

March 2019 - July 2024 : Environment Officer - Environment Division, The ASEAN Secretariat

The ASEAN Secretariat functions as coordinator to facilitate effective decision-making within and among ASEAN bodies, including on the various environmental issues and cooperation. The purpose of the Environment Division is to manage and promote ASEAN regional environmental cooperation to contribute to sustainable development, including climate change

Key responsibilities of the Environment Officer, include:

- Contributing and providing technical inputs in the development of regional policies, frameworks, and strategies on climate change
- Coordinating the development of regional cooperation on climate change with the ASEAN Member States and Partners
- Provide technical advice and training to ASEAN Member States on regional climate change initiatives
- Providing advice on the planning of regional initiatives concerning climate change
- Facilitating coordination between ASEAN Member States and Partners for collaboration and resource mobilization
- Overseeing the implementation of various regional climate change initiatives in coordination with the ASEAN Member States and Partners

Key Achievements:

- Supported and provided inputs to ASEAN in the development of various key regional publications, such as the ASEAN State of Climate Change Report and the ASEAN State of Environment Report
- Supported and provided inputs to ASEAN in the development of regional frameworks and strategies on climate change, including the ASEAN Working Group on Climate Change (AWGCC) Action Plan 2019-2025, ASEAN Climate Finance Strategy, ASEAN Sustainable Consumption and Production Framework, and ASEAN Joint Statements on Climate Change to UNFCCC COPs
- Supporting ASEAN in the development of the ASEAN Centre for Climate Change

February 2015 - January 2017 : Urban Forest and Community Forest Officer, The Ministry of Environment and Forestry, Indonesia

The Directorate is responsible in creating technical concepts and policies on sustainable urban and community private forests management in Indonesia. The work unit is also overseeing the implementation of urban and community private forests policies with relevant stakeholders

January 2014 - January 2015 : Media Development Program, PT. SCTV

Media Development Program (MDP) is a trainee program designed to transform a fresh graduate into the future leader in broadcasting industry. MDP in Marketing communication Department is responsible in developing a concept of off-air promotion events and medias (banner, booth, billboard)

August 2013 - October 2013 : Research Assistant, Bogor Agricultural University

Collecting and analyzing data on the community perception and pretension of PT. Inhutani in Pulau Laut, Kalimantan Selatan, through interviews with the community and local governments. The potential conflict in the society that might occur as an impact of forest management activities in the area was also being researched
